

CAREER OBJECTIVE

Detail-oriented Full-Stack Developer skilled in React.js, Node.js, Express, and MongoDB. Seeking a challenging role to build scalable web applications, enhance user experience, and contribute to a high-performing engineering team while continuously growing my technical expertise.

WORK EXPERIENCE

**Front-end Development • Internship** Nov 2024 - Dec 2024  
CodeXintern, Noida

Developed and optimized multiple responsive web pages using React.js and modern JavaScript (ES6+). Improved UI performance and component reusability, reducing load time by 20%. Collaborated with a team using Git and Agile development practices. Tested core features using Jest and React Testing Library to ensure quality and stability.

EDUCATION

**B.Tech, Electronics and Communication** 2021 - 2025  
Maharaja Agrasen Institute of Technology, Delhi  
CGPA: 7.63/10

**Senior Secondary (XII), CBSE** 2021  
Science  
Army Public School, Delhi Cantt  
Percentage: 84.40%

**Secondary (X), CBSE** 2019  
Army Public School, Delhi Cantt  
Percentage: 85.40%

TRAININGS / CERTIFICATIONS

**Git And GitHub: Mastering Version Control**  
Oct 2025  
Internshala Trainings, Virtual

**Designing Web Pages Using HTML And CSS**  
Sep 2025  
Internshala Trainings, Virtual

**Full Stack Development: Let's Begin**  
Sep 2025  
Internshala Trainings, Virtual

**Full Stack Development**  
Sep 2025 - Present  
Internshala, Virtual

- Fundamentals of Full Stack Development
- Web Page Designing (HTML and CSS)
- Git and GitHub: Version Control
- Websites Development (JavaScript)
- Data Structures and Algorithms (DSA) in JavaScript

PORTFOLIO

[GitHub link](#)

PROJECTS

## [Mastering DSA: Arrays, Searching & Sorting ↗](#)

Nov 2025 - Dec 2025

- Developed a comprehensive understanding of foundational Data Structures and Algorithms concepts.
- Worked on designing and optimizing search and sort algorithms with applications in various data structures, enhancing efficiency and problem-solving.

## [Personal Portfolio Website ↗](#)

Sep 2025 - Oct 2025

Developed a personal portfolio website using HTML and CSS to professionally showcase my skills, projects, achievements, and contact information. The design was clean and responsive, ensuring a seamless user experience across various devices and screen sizes. I demonstrated strong front-end development skills by creating a visually appealing and well-structured layout that enhances my professional online presence. Additionally, I implemented effective navigation and UI elements to improve user interaction and accessibility for potential clients and employers.

## [Personal Finance Tracker ↗](#)

Nov 2024 - Dec 2024

A responsive web application built with React.js, JavaScript (ES6+), and Context API to help users efficiently manage their income and expenses. It allows users to add, edit, and delete transactions, automatically updates the total balance in real time, and stores data securely using Local Storage. Focused on a clean, user-friendly UI and optimized component rendering for seamless performance across devices

### SKILLS

- |              |                   |                        |
|--------------|-------------------|------------------------|
| • HTML       | • JavaScript      | • CSS                  |
| • React      | • Node.js         | • Frontend development |
| • SQL        | • Data Structures | • Algorithms           |
| • REST API   | • Git             | • Tailwind CSS         |
| • Express.js | • MongoDB         | • Next.js              |

### EXTRA CURRICULAR ACTIVITIES

- Organized and led team activities during college technical fests.
- Participated in multiple coding competitions and completed certification courses in React and JavaScript.
- Active member of the college tech club and took part in workshops/seminars.
- Engaged in sports activities like cricket and badminton for skill development.

### ADDITIONAL DETAILS

- Hacker Rank: Certified FrontEnd Developer
- TuteDude: Certified React Developer
- Internshalla: HTML & CSS Developer
- Internshalla: Developing Interactive Websites with JavaScript

## [Weather Forecast Application ↗](#)

Nov 2025

- Designed and developed a weather forecast application with an intuitive interface, facilitating real-time weather checks and location-specific forecasts.
- Asynchronously implemented API requests for weather data retrieval, updating the DOM to reflect live weather conditions and forecasts.
- Focused on a responsive design to enhance user experience on various devices, utilizing JavaScript to optimize data processing and interaction.

## [Google Drive](#)

Apr 2025 - May 2025

Built a full-stack web application replicating Google Drive, featuring file and folder management, upload/download functionality, and user authentication. Implemented backend APIs for secure data handling and ensured a responsive, interactive UI with smooth performance across devices. Focused on state management, seamless user experience, and real-time updates.

## [Employee Management System](#)

Jan 2024 - Feb 2024

Developed a frontend-admin dashboard for managing employee data, enabling adding, viewing, searching, and filtering records. Ensured a responsive and intuitive UI with smooth navigation and efficient state handling. Focused on component reusability and clean architecture for easy maintenance and scalability.
