WORK EXPERIENCE
RMK EXPRESS, Salem Booking And Pick-Up Incharge - (May 2023 - Dec 2024)
● Managed courier pickup and booking operations. ● Sorted and packaged couriers for timely delivery.
● Coordinated with logistics teams for smooth tracking. ● Trained and supervised 12+ workers, improving efficiency. ● Planned pickup schedules and ensured on-time execution.

Career Transition: This role strengthened my **attention to detail, problem-solving, teamwork, and leadership skills** — which I now apply in my career as a **Front-End Developer**, building efficient, responsive, and user-friendly web applications.

PROJECTS
Food-Mall↗ github-repo (_Dec 2024 - Feb 2025_)
Food-Mall – Food Delivery App.
Built a scalable food-delivery UI in React with dynamic restaurant listings and search. Used **Parcel bundler, React Hooks, and tested with Jest & React Testing Library, Redux Toolkit.**
Tech Stack: React.js, React Hooks, Parcel, RESTful APIs, Jest, React Testing Library.

shoppyglobe-rl.web.app ↗ (_Aug 2025_)
ShoppyGlobe – E-commerce Platform- _(Academic Project)._
Developed a responsive app for browsing and viewing products by category. Used **React Router**, **TailwindCSS** and deployed on **Firebase**. Improved performance with **lazy loading** and modular components.
Tech Stack: React, Redux, React Router, API Integration, TailwindCSS.

online-library↗ (_Aug 2025_)

online-library – Movie library.
Developed a responsive app for browsing and viewing Movies by category. Used **React Router, Tailwind CSS, and Firebase** for deployment. Enhanced performance via lazy loading and modular components.
Tech Stack: React.js, React Router, Tailwind CSS.

Weather Forecast Application↗ (_Jul 2025_)

Weather Forecast Application.
Built a real-time weather app fetching live API data.Designed with a Clean, Responsive UI for all devices.
Tech Stack: JavaScript, Weather API, HTML, Tailwind CSS.
